History Data

Summary | Savings | Calculate | Daily Event Log |

Cumulative data

Data collected since: 03/19/2003

Number of power failures: 2

Cumulative time on battery: 0 hr 5 min

Savings calculator

One-time cost per power failure: 500

Per hour cost during a power failure: 15,000

Savings Type	Event Data	Cost	Savings
Per incident savings:	2 x	\$500.00 =	\$1,000.00
Hourly savings:	0 hr 5 min x	\$15,000.00 =	\$1,250.00
Total savings:			\$2,250.00
